THE EXPERT MATHS TUITION CENTER LTD

Shaping Brilliant Minds

Helping Students reach their full potential

Soniyaa

Welcome to EMT

We are excited and thrilled to have you join the EMT Family. When we started in 2003 we never imagined that we would be where we are today.
It's been possible through hard work, dedication, perseverance and a relentless drive to succeed, but most importantly without continued support of our students we would be nowhere.

The students that have come and gone throughout over 22 years since we have started making up the DNA and fabric of EMT. Nothing brings us more pleasure than to see our students and as you may come to hear us refer to them as our children succeed. We have seen our students go on and become lawyers, doctors, engineers, mathematicians, physicians, but more importantly they have gone to become fine human beings. We are here merely to guide you on the right path, nothing more nothing less.

We hope you are excited to join this journey with us, because we certainly are.

Soniyaa Siingh - Founder of EMT

Confidence + Enthusiasm + Skills = Brilliant Mind

A little about us

At EMT, we specialize in maths tuition and have successfully supported tens of thousands of students since 2003. We offer instruction for all levels, from Year 1 to Year 13, and specialize in NCEA, IGCSE, and Cambridge curriculums.

Our services also extend to entrance exam preparation for those seeking careers in the defence forces or other fields that require maths aptitude. We offer preparation for a wide range of entrance tests, including GMAT, SAT, all NZ defence force, and Banking entrance test.

With maths tuition centers located throughout Auckland and plans for national expansion, we are committed to providing accessible, high-quality maths education. Our teaching philosophy emphasizes direct engagement and problem-solving skills, with our maths experts working directly with students using traditional pen-and-paper methods.

We are proud to announce that in over 22 years of operation, no one has ever claimed our 100% money-back guarantee. At The EMT, we strive to create a space where children, teenagers, and adults can unlock their full potential.

The Founder

"I have been teaching maths for over 22 years, and it's a subject that i came to love through my school days and since then my love has only continued to grow. What I enjoy the most is nurturing and fostering the curiosity in each of my students and sharing my passion and love for the subject with them and ultimately seeing them grow and go on and conquer the world."

Soniyaa

Session types

Assessment Session ($55 Incl GST)

During the first session, we will assess your child's current Maths ability to identify any areas where they may be experiencing difficulty. You are welcome to observe this assessment session and will receive the results at the end. We offer a 100% money-back guarantee of progress during this initial session.

Our assessment covers all areas of mathematics, evaluating your child's capabilities, strengths, and weaknesses. We encourage you to sit with your child during the assessment to gain a better understanding of our tutorial methods.

If, at the end of the session, you or your child are not satisfied with our teaching style, there will be no charge. We are proud to say that throughout EMT's history, none of our students have requested a refund or left dissatisfied.

One on one Session ($89 Incl GST)

One-on-one sessions provide intensive, personalized support. These sessions focus on addressing each student's individual weaknesses to enhance their comprehension and boost their confidence in mathematics. During a one-on-one session, your child will have the tutor's undivided attention, allowing them to address specific questions and challenging areas.

Group Sessions ($45 Incl GST)

Group sessions can be a cost-effective way to improve a student's marks. These sessions involve small groups of four to six students and closely follow the school syllabus as set out by the Maths education department.

In our experience, we have found that maximum 6 students is the ideal group size. This number allows each student to receive personal attention while fostering a productive learning environment. Group sessions are particularly effective for students who enjoy working with others or who thrive in a friendly yet competitive atmosphere.

Shared Sessions ($69 incl GST)

Do you have a friend who would also benefit from maths tutoring? If so, our shared sessions might be a great option! These sessions typically have two to three students and have proven very effective for many of our students.

Our fees

* Initial Assessment Session (100% money back guarantee) (One Hour) $55 inc GST
* Group Session (One Hour) $45 inc GST
* One on One Session (One Hour) $89 inc GST
* Shared Session (One Hour) $69 inc GST

Method of Payment & Payment Policy

Payment is payable through either Cheque or Internet Banking. If none of these options are suitable, please let us know and we will be more than happy to assist you.

Internet banking

- Please pay full term fee in advance.
- Please include in the "reference" the Student's Name.
- Please include in the "code" the Branch the student is registered too.
- EMT BNZ Bank Account Number 02-0108-0959467-009

Payment Policies

Please pay before you Book

At the EMT, our primary focus is your child's learning. To ensure that our time and energy are dedicated to our students, we have implemented a "Pay & Book" policy. This policy requires that payment for all sessions be made before booking and commencing the sessions. We believe this will minimize administrative tasks and allow us to concentrate on providing the best possible tutoring experience for your child.

1. Purchase a package using your preferred payment method.

2. Confirm the payment for the desired sessions.

3. Email us with your preferred days, dates, and time slots for the sessions.

4. Email: info@expertmathstuition.co.nz

What to bring

We know you are excited and so are we but before you forget, let us kindly remind you what to bring in your next session:

- School Course Outline
- 1B8 Exercise Book
- Latest School Report
- Textbooks/Past Papers in your possession
- Any school homework.
- Clearfile.
- But most importantly, your willingness to learn.

Our Promise to you

Our promise to you is that each and every session you will get the complete and undivided attention of your tutor.

We will share our love for Maths with you so that you will come to not only enjoy it but love it and share this new profound knowledge and confidence with your classmates and teachers.

When you step into our doors, you will be treated with the utmost respect, and we will create an environment that fosters learning and excellence.

This is our promise to you.

Questions

If you have any questions, please don't hesitate getting in touch with us by email info@expertmathstuition.co.nz or call on 0800 6284 63 please visit our website **www.expertmathstuition.co.nz** for more information.

Terms & Conditions & Booking Policy

Cancellation Polices

- Please note that a minimum of 24 hours notice is required if a student is unable to attend a booked session.
- If a student fails to attend without providing notice, the session fee will be charged. Alternatively, the student may attend a catch-up session within the same week.
- In the case of sickness or other emergencies, we kindly request that you still provide adequate notice so that we may offer the session time to another student.

Tutorial Polices

- Scheduled tutorials are a minimum of 60 minutes in length.
- Scheduled tutorials may be requested during term breaks and summer holidays, subject to mutual agreement between the tutor and student/parent/guardian.
- Casual tutorials are scheduled at the student's request, subject to mutual agreement between the tutor and student/parent/guardian.
- Please note that previously available tutors and tutorial times may not always be available.

YOUR SUGGESTIONS FOR US TO IMPROVE:

Testimonials

"EMT provides an outstanding service to students at every stage of their education. Having personally experienced the progress my daughter made last year with EMT, I would highly recommend their services. EMT spent time finding out exactly where my daughter had gaps in her learning and then catered to her individual needs within their sessions. The approach undertaken by EMT was extremely positive and encouraging. I would encourage any family looking for extra support for their children to use EMT. "
Principal, Jo Kaurilands School

"I got help from EMT in year 12 & 13 . I really struggled with maths, so it was a big help to come up to Auckland in the school holidays because I couldn't find anywhere in Christchurch to help me. I ended up passing year 12 with quite a few Merits which I was quite surprised with and I passed all my year 13 papers which I was very happy with because I didn't think it was going to happen. Thank you EMT. "
Fleur, University Student

"Before I came to Maths tutoring with EMT, I wasn't that good at Maths. Now I have passed my Gold Maths medal! They also made maths fun! Thank you EMT. "
Ashleigh, Year 6, Konini School

"Before EMT my Maths was pretty bad and soon I was able to use the knowledge gained from EMT to pass my New Zealand Navy Entrance Exams. After EMT my confidence in maths significantly increased. I would like to thank both Suri & EMT for all their help, patience and knowledge. Without EMT, this would not be possible. "
Karan - Navy Test

Testimonials

"EMT has helped me work so hard during my study break and because of their teaching and support I have got really good marks in my NCEA Level1 Geometry exam last year!! Which was an EXCELLENCE, and I am so proud of my result!"

Ashlyn, Year:12, School/College:Marrist

"I got EXCELLENCE on the MCAT, MERIT on EOY Graphs and EXCELLENCE on EOY Geometry"

Harini, Year:11, School/College:MAGS

"I managed to achieve my year 12 calculus paper with excellence!"

Tomas, Year:13, School/College:MAGS

"Thank You EMT for helping me achieve MERIT in my level2 Algebra Exams. Thank You for also helping me get EXCELLENCE in my Linear Programming."

Christina, Year:13, School/College: Marrist

Customised Learning Programmes
Progress Assessment Plan and Reporting
100% Money back guarantee

Testimonials

"I started Coordinate Geometry only being able to understand how to find the gradient at a line. By the end of this topic I was able to find distances, gradients, mid points at points on a graph. For the test I got a MERIT."

Celestia, Year:12 , School/College: Green Bay High

I had an Algebra topic test in school, this test was important because it's one of the main tests that determine whether I will be able to get into Calculus next year.
In the test you have to get 60% to pass and I managed to get 71%.
Thanks to EMT

Poovika , Year:11, School/College: Mount Albert Grammar

"I recently did my test for Decimals, Fractions, and Percentage. I was very bad at these 3 things, but with EMT's help I managed to achieve level 5.
Thanks EMT!"

Dwayne, Year:9, School/College: Lynnfield College

I am really happy with myself for achieving my goal for my Numeracy test.
I would not have been able to achieve level 5 EXCELLENCE without EMT's help.

Chloe, Year:10, School/College: Green Bay High School
